### **Precision Listening® Infant Language Development Prediction Technology (Offer valid until March 31)**

LUAHK members, along with their family and friends, are eligible for a 10% discount on the Precision Listening® Early Language Prediction Technology service. This assessment is designed for infants aged 0-24 months and was developed by a local university research team. Precision Listening® accurately predicts an infant's language development trajectory. The standard price for the service is \$3500, but during the promotional period, the discounted price will be \$3150. The offer is valid for six months.

#### **Redemption:**

Use the discount code "FORE10" at checkout on our partner's e-shop to redeem this offer.
